Go (*gō*), *v* Pa. t. **went** (went); pa. pple **gone** (*gŏn*). Forms see below. [A Com. Teut defective vb., perh originally existing only in the pres.-stem, though str pa. pple occurs in some of the Teut langs. The forms in the W Ger langs are as follows: OE inf *gān*, pr. t. *gā*, etc (see below), pa. pple *gegān*, OFris. pr. t. 3rd pers sing. *gāth*, *geith*, pa. pple *gān*; OS inf *-gān* in *fulgān* to accomplish, OLow Frankish *gān* (MDu *gaen*, Du. *gaan*, pr. t *ga*, *gaast*, etc), OHG (Alemannic) inf. *gān*, pr. t. *gām*, *gās*, *gāt gōmês*, etc., (Bavarian) inf *gēn*, pr t *gēm*, *gēs*, etc. (MHG. *gān*, *gēn*, mod Ger. *gehen*, pr t. *gehe*, *gehst*, etc), the MHG pa pple *gegān* is not found in OHG The Scandinavan langs. have forms which appear to belong to this vb: ON inf *gā* (late and rare), Sw *gå* (pr t. *går*, etc), Da. *gaa* (pr t *gaar*, pa pple *gaaet*); but it is possible that these may have been evolved from the pa t *gekk* of *gangа* (GANG *v*), on the analogy of *få*, *fekk* (see FANG *v*) The vb. does not occur in Wulfila's Gothic, but the Crim-Gothic of the 16th c had, according to Busbeck, the inf *geen*

As is shown by the evidence of OHG, the vb belongs to the class of 'verbs in *mi*' The forms in the various langs point to a twofold OTeut stem, *gē-*, *gæ-*, which seems to have been apprehended as having the same relation to the stem *gang-* (see GANG *v*.) as *stē-*, *stæ-*, to the extended stem *stand-* (see STAND *v*), thus in OHG. *gēn*, *stēn* (which are strictly parallel in conjugation) are functionally mere variants of *gangan*, *standan* It is probable that the words expressing the contrasted notions 'go' and 'stand' have exercised some analogical influence on each other Whether there is any etymological connexion between *gē-* (*gæ-*) and *gang-* is uncertain Three suppositions are conceivable: (1) that the two are unrelated, and have been associated owing to their similarity in sense and sound; (2) that *gang-* (=OAryan **ghongh-*) is a nasalized reduplication of the root preserved in Teut *gē-* (*gæ-*); (3) that the shorter vb was evolved from the proportion *stand- stē* (*stæ-*) *gang gē-* (*gæ-*) The first two of these views leave the etymology undetermined Kluge proposes an OTeut. type **ga-lm-ja*, *ga-* prefix, the root *ī* (Aryan *ei-*, *i-*) of *Gr ἴέναι* (*εἶμι*), L. *ire*, but this has not been generally accepted Other scholars have suggested affinity with Skr *hā* to leave, forsake, with Gr. *κιχάνειν*, *κιχῆναι* to attain, reach, or with Lettish *gaju* 'I went'

The place of the missing pa t was supplied in OF by *eode* (*-dest*, *-de*, *-don*), believed to be an extension, with the suffix *-de* of weak preterites, of a lost form equivalent to the synonymous OHG *stōhta* =OTeut **staiθa*, an imperfect or aorist of the Indogermanic vb *yā-* to go, an extended form of *ei-*, *i-* (see above), there are, however, some unsolved difficulties (see Sievers *Ags Gr.*[2] § 114, Brugmann *Grdriss* II 861). The OF *eode* became in ME. *yede*, *yede*, *yode*, etc ; in the south these forms died out in the 15th c, and were superseded by the pa.t of WEND, as this vb had become synonymous with *go*, and its inf and pr tense had ceased to be in frequent use The use of *went* as a pa. pple is sometimes heard in illiterate speech In Sc and northern dialects *yede* was superseded, not by *went*, but by a new formation on the present stem, *gaed* (see A. 3 b). In the archaistic language of Sackville and Spenser, YEDE was used as a present-stem, and *yode* as the corresponding pa t

The perfect tenses were originally formed with *be*, this is still used where the tense expresses a single act, but is now rarely substituted where it expresses an action, in many cases either auxiliary may be used without perceptible difference of meaning

B. Signification.

gen. An intransitive verb of motion, serving as the most general expression (I) for a movement viewed without regard to its point of departure or destination; (II) for a movement *away from* the speaker, or from the point at which he mentally places himself, and (III) for a movement *to* or *towards* a place which is neither in fact nor in thought that occupied by the speaker. The verb is thus on the whole co-extensive in meanng with the Latin *ire*; in the branches II and III it admits of being contrasted with *Come* (= L. *venire*). Besides this general sense, it had formerly a special application to *walking* as distinguished from other modes of progression; possibly this may be the primitive sense, but only faint traces of it remain in current English. Like *come*, it is applied both to self-originated and to impressed movement, but the former application is felt to be the primary one.

I Of movement, irrespective of the point of departure or destination

†1. ↔ To walk; to move or travel on one's feet (opposed to *creep, fly, row, swim*, etc); to move on foot at an ordinary pace (opposed to *run*, etc)

To go alone to walk without support *Obs*

Goal (*gōl*), *sb.* Forms: 4 gol, 6 gowle, 6–7 go(a)le, 7– goal [Of difficult etymology.

After the solitary (but app unquestionable) occurrence in Shoreham's Poems (*c* 1315) the word first appears in 1531; and soon afterwards is very common, prob. it had survived only as a technical term of some rustic sport, and so failed to be recorded in literature.

Shoreham's form *gol*, rimed with *y-hol*, suggests (though it does not necessarily imply) descent from an OE **gōl* [This would be quite certain if the word could be positively identified with the *gale* found in *Cursor M.* 8710 (Cott) 'O þis quikk þat hath wald be Moder And auther wald þan half a fode, But þat þair ministere of þam sal ga' But it is not unlikely that in this passage *gale*, obviously chosen for the sake of rime, is merely a forced use of Gale *sb.*^{2} in the sense of 'joy'.] Of the existence of an OE. *sb.*, agreeing with the sense 'obstacle, barrier', some indirect evidence is afforded by the apparent derivatives *gælan*, *āgælan*, to hinder, delay The transition from the sense of 'barrier' to that of 'boundary, terminus' would be the further development is parallel to that of L. *meta*, and of Door *sb*^{1}, in view of the history of the latter word, Halliwell's alleged 'Scotch' sense of 'tumulus' might be of importance, if there were any ground for believing it to be genuine But the absence of any record of OE **gōl* or of its equivalent in any of the kindred language (ON *gol*, narrow passage, being too remote in sense) renders the etymology very insecure

The suggestion of Henshaw (in *Skinner's Etymologicon* 1671), accepted by all subsequent etymologists, that the word is a derivative of **gealu*, pale, sickly, with h, has nothing to recommend it There is no evidence that F *gaule* ever meant 'goal,' or that Eng *goal* ever meant 'pale' or 'weak'. Besides, for the form in Shoreham, the Fr derivation appears to be phonologically inadmissible.

A Welsh *gal* is given by Davies *Antiq. Ling Brit Dict.* (1632) as one of the renderings (*stadium, meta, statio*) which would make it equivalent to Eng *goal* If this word be genuine (which seems to be doubtful) it must apparently be an early adoption from English; the suggestion in Rhys *Lect. Welsh Ph.* (1877) that it represents an OCelt **galdā* stone, being phonologically untenable (Prof Rhys)

The current word in most parts of Wales for 'goal' with reference to games is *cōd*, mutated *gōl* (*gōl*), which probably has obtained this meaning through its similarity of sound to the Eng word | he Windhill dialect has a word pronounced (*gōl*), explained as meaning 'goal', used in a certain game played with brass buttons (cf Goo 9), but its identity with this word is doubtful]

OE. *gát* being fem denoted only the female goat; the male was called *bucca* Buck 2, also *gáthucca* Goat buck. The extended sense seems to occur in early ME., and is frequent in the 14th c. The distinctive terms *he-goat* and *she-goat* appear about the end of that century, and are now the recognized terms for the two sexes (colloquially also *billy-goat* and *nanny-goat*). The young animal is called a Kid.

1 A ruminant quadruped of the genus *Capra*

The goat is indigenous to the Eastern Hemisphere, but by domestication naturalized in all parts of the world It is especially noted for its hardy, lively and wanton nature, and its strong odour Most of the species have hollow horns, curving backwards, and the male is usually bearded.

Goclenian (gŏkli·nian), *a. Logic.* [f. *Goclenius* (see below) + -an.] Epithet of a variety of the Sorites first formulated by Rudolf Goclenius (1547–1628), otherwise called the *descending sorites*, opposed to the *Aristotelian* or *ascending sorites* (see Sorites)

God (gŏd) Also 3–4 **godd** [Com Teut · OE *god* (masc in sng, pl *godu, godo* neut, *godas* masc) corresponds to Oflris, Os., Du *god* masc, OHG. *got, cot* (MHG *got*, mod Ger *gott*) masc., ON. *goð, guð* neut. and masc., pl. *goð, guð* neut. (later Icel pl. *guðir* masc, Sw, Da *gud*), Goth *guþ* (masc. in sing; pl *guþa, guda* neut.) The Goth and ON words always follow the neuter declension, though when used in the Christian sense they are syntactically masc. The O Teut type is therefore ***guðo-*n neut, the adoption of the masculine concord being presumably due to the Christian use of the word. The neuter sb, in its original heathen use, would answer rather to L. *numen* than to L. *deus* Another approximate equivalent of *deus* in OTeut was ***ansu-z* (Goth in latinized pl. form *anses*, ON *æsir*, OE *Ós-* in personal names, *æsc* gen. pl. in poetry) from which the verb **ansjan* (Goth *gausjan*, OE *wēofian*) was formed, and is now applied only to the higher deities of the native pantheon, never to foreign gods, and it never came into Christian use

The ulterior etymology is disputed Apart from the unlikely hypothesis of adoption from some foreign tongue, the OTeut ***guðo-*n implies as its pre-Teut type either ***ghutó-s* or ***ghutó-m* The former does not appear to admit of explanation, but the latter would represent the neut of the passive participle of the root **ghu-* (whence Aryan **ghu-to-*) required form (both **gh'as*, with palatal asprate) one meaning 'to invoke' (Skr *hū*), the other 'to pour, to offer sacrifice' (Skr *hu*, Gr χεύω, Gk *χότατ* Yet) Hence **gh'utó-n* has been variously interpreted as 'what is invoked' (cf Skr *puru hūta* 'much-invoked', an epithet of Indra) and as 'what is worshipped by sacrifice' (cf Skr *hutá*, which occurs in the sense 'sacrificed to' as well as in that of 'offered in sacrifice') Either of these conjectures is fairly plausible, as they both yield a sense practically coincident with the most obvious definition to be derived from the actual use of the word, 'an object of worship' Some scholars, accepting the derivation from the root **gheu-* to pour, have supposed the etymological sense to be 'molten image' (=Gr χωνευτόν) but the assumed development of meaning seems very unlikely

From a desire to utter the name of God more deliberately than short vowel naturally allows, the pronunciation is often (gād) or even (gād), and an affected form (gōd) is not uncommon see Gud (For the variations in oaths see to and 11) In Sc the usual pron is (gŏd), but *Gude* (gūd), i. e. Good *n.*, is frequently substituted in such expressions as *Gudesake, Gude keep't*, etc.]

I In the original pre-Christian sense, and uses thence derived.

1. A superhuman person (regarded as masculine see Goddess) who is worshipped as having power over nature and the fortunes of mankind, a deity (Chiefly of heathen divinities; when applied to the One Supreme Being, this sense becomes more or less modified see 6 b).

Even when applied to the objects of polytheistic worship, the word has often a colouring derived from Christian associations As the use of *God* as a proper name has throughout the literary period of English been the predominant one, it is natural that the original heathen sense should be sometimes apprehended as a transferred use of this, 'a god', in this view, is a supposed being put in the place of *God*, or an imperfect conception of *God* in some of His attributes or relations

Besides having been thus modified by the influence of the Christian use, this sense as expressed in the definition has been affected by the pagan uses of L. *deus* and Gr θεός, of which *god* is the accepted rendering Thus, in speaking of Greek mythology, we distinguish the *gods* from the *demons* or supernatural powers of inferior rank, and from the *heroes* or *demigods*, who, though objects of worship, and considered as immortal, were not regarded as having ceased to be men; and the analogy of this nomenclature is often followed in speaking of modern polytheistic religions

When the word is applied to heathen deities disparagingly, it is now written with a small initial, when the point of view of the worshipper is to any extent adopted, a capital may be used

** *In oaths*

13. *By God, † before* (or *fore*), *God*, also *by God above*, etc (cf. B A 2)

From a desire to avoid actual use of the sacred name come various distorted or minced pronunciations of the word, see Cock, Don, Gad, Gar, Gis, Gog, Gom, Gosh, Gos(se, Gud, Gum, also Adad, Adod, Bedad, Begad, Begar, Econ, Egad, Egod, Iead. Of these forms only *Cock* and *Gog* are common. Such euphemisms occur mainly in the 17th and 18th c. *Gar* is by the dramatists chiefly put in the mouths of foreigners (cf 14)

14. In possessive combinations serving as assevrative or adjuratory formula. Preceded by *by* or (in adjuratory use cf 11) by *for*, also with omission of prep (Cf *Gad* sb 5 3.)

Corrupt or minced forms of these oaths are also common, *God's* being altered or substituted to *Ads, Cock, Cocks, Cuds, Gads, Gogs, Gods, Hiz, 'Ods, 'S, Uds, 'Z* (in *Zoobs, Zounds*), of these only *Cocks* and *Gogs* are old, the others coming into use about 1600 or later, the full forms are rarely found after that date except in archaisms The form *Gars* is assigned to foreigners, as *gars blur, garsoone* in *Doctor Dodypoll* (Bullen *O. Pl* III 129), *garcoon* in Farquhar (*Beaux Strat* iii. 1).

a. With ordinary sbs, sometimes preceded by an adj ; also with the adj used substantivally, as *God's blest, precious, etc.*

In some of these oaths the sb denotes an attribute of Deity, more usually, *God's* or *Christ's*, as in *God's arms, body, blood, etc* In some particular oaths, as in *God's brother, fish, hat, malt*, the sb has no meaning in its connexion, being substituted for some word of solemn import

1. A male sponsor considered in relation to his god-child

According to the practice of the Roman, Greek, Anglican, and some other churches, certain persons (commonly two at least, a man and woman) assist at the administration of baptism, make profession of the Christian faith on behalf of the person baptized, and guarantee his or her religious education In accordance with the view that these persons enter into a spiritual relationship with the baptized person and with each other, they were in OE denoted by designations formed by prefixing *god-* to the words expressing natural relationship, as *godsibb, godsuster, godmoder, godbearn*, etc. The same terms are employed in the Scandinavian languages (ON *guðsifkin, faðir, móðir*, etc, and corresponding forms in Sw and Da.), prob. as adoptions from OE. The Du *godmoeder, godvader* (also *godt*), recorded in Kilian, are obsolete (if they were ever used) in Holland, but are still current in certain parts of Belgium

In many dialects there is a difference in pronunciation between this sb. and GOLD [1] the name of the plant, as also in *mould* —OE *molde*, the northern dials have generally the vowel ordinarily corresponding to OE *á*, ME close *ō*, while in GOLD [1] the pronunciation descends normally from OE *gōld*, ME *gold* (Cf esp *Sc gold*, corn marigold, with *gowd*, the metal) The difference is doubtless due to the fact that the one word was disyllabic, the other monosyllabic. In Sc. and early E.

Commonly supposed to be an adoption of Du *kolf*, *kolve* (= G *kolbe*, ON. *kólfr*, etc.) 'club', the name of the stick, club, or bat, used in several games of the nature of tennis, croquet, hockey, etc But none of the Dutch games have been convincingly identified with golf, nor is it certain that *kolf* was ever used to denote the game as well as the implement, though the game was and is called *kolven* (the infinitive of the derived vb.) Additional difficulty is caused by the absence of any Scottish forms with initial *c* or *k*, and by the fact that golf is mentioned much earlier than any of the Dutch games. The name mod. Sc. dialects have *gowf* 'a blow with the open hand', also vb to strike

The Sc pronunciation is (gouf), the pronunciation (gɒf), somewhat fashionable in England, is an attempt to imitate this]

A game, of considerable antiquity in Scotland, in which a small hard ball is struck with various clubs into a series of small cylindrical holes made at intervals, usually of a hundred yards or more, on the surface of a moor, field, etc. The aim is to drive the ball into every one hole, or into all the holes successively, with the fewest possible strokes, commonly two persons, or two couples (a 'foursome'), play against each other.

A *adj.*

The most general adj. of commendation, implying the existence in a high, or at least satisfactory, degree of characteristic qualities which are either admirable in themselves or useful for some purpose

As strength or expansion of commendation than 'good' may be used, the latter sometimes has by comparison a modified sense :- 'fair', 'passable ' 'fairly large', etc.

In OE. in OS and OHG the opposite of 'good' was regularly expressed by *yfel* Evil, but in ME this was supplemented by Ill and Bad, the latter of which is now the more general term

1. In the widest sense, without other specialization than such as is implied by the nature of the object which the adj. is used to describe

1. Of things: Having in adequate degree those properties which a thing of the kind ought to have

Du. *wat goedtjaar.* Plantijn (1573) renders *Wat goet saer is dat?* by F *Que bon heur est cela?* and L. *Quid hoc omnis?* The Du. lexicographers suggest that the idiom probably arose from an elliptical use of *good year* as an exclamation, = 'as I hope for a good year'. One example of *good year* approximating to the later Eng. sense (b below) is quoted in the *Wb der Nederl Taal* V. 311

Sir T. Hanmer, in his edition of Shaks (1744), suggested that in the three Shaks. passages *good yeares* had the sense of the French disease ; and was a 'corruption' of *gougeres*, a hypothetical derivative of 'the French word *gouge*, which signifies a common Camp-Trull' So far as the sense is concerned, this explanation is curiously plausible, as it seems to be applicable without any violence to all the examples of the word (cf. *what the pox*, etc) But there is no evidence that the definite meaning of 'pox' was really intended by any of the writers who used the word, and the alleged etymology is utterly inadmissible Hanmer's spurious form *gougeres* or *gougeers* has, however, found its way into many editions of Shakspere, and was adopted as the standard form in Johnson's Dict 1755, and hence in every later Dict which contains the word]

Goth *þiupspillōn* 'to preach the gospel' (*εὐαγγελίζεσθαι*), f *þiups* good + *spillōn* to announce (cogn. w SPELL) When the phrase *gód spel* was adopted as the regular translation of *evangelium*, the ambiguity of its written form led to its being interpreted as a compound, *godd-spel*, f GOD + *spel* in the sense 'story' . The result was very unfortunate, as the resulting sense was much more obviously appropriate than that of 'good tidings' for a word which was chiefly known as the name of a sacred book or of a portion of the liturgy. From OE the word passed, in adapted forms, into the languages of the Teutonic peoples evangelized from England . OS *godspell*, OHG. *gotspell*, ON. *guð-, godspall*; in each case the form of the word has been influenced unconsciously that it was identified with *God*, not with *good* The ON. form has survived into mod Icel. ; the continental Teut. langs early discarded the word for adoptions of L *evangelium*.

Although the *d* in OE. *godspel* would necessarily in time have been shortened by the regular operation of phonetic law, it does not appear that this process could have taken place early enough to account for the form of the word in OS and OHG. The form *godspel* must therefore (as above explained) be due to a misinterpretation of the written form, originating before the word had any oral currency]

Gossamer (*gɒ*·sămər), *sb.* and *a.* Forms: 4–5 **gossesmer(e,** 4–6 **gossom(m)er,** 5 **gosomyre, gosoummer,** 6–7 **gosamour, 7 gosimore, gossamire, -ore, gossem-, -im-, -ymear(e, -e(e)re, gothsmay, -imere,** 7–9 **gossamere,** 8 **gossamer, (gossahemere, gazsummer),** 7– **gossamer.** [ME. *gos(e)somer(e,* app f Gosse *sb.* + Summer *sb.* Cf. the synonymous Eng dial. *summer-goose* (Craven), *summer-colt,* G *mädchensommer* (lit 'girls' summer'), *altweibersommer* ('old women's summer'); also G. *sommerfaden,* Du *zomerdraden,* Sw. *sommartråd,* all literally 'summer thread'.

The reason for the appellation is somewhat obscure. It is usually assumed that *goose* in this compound refers to the 'downy' appearance of gossamer. But it is to be noted that G. *mädchen-, altweibersommer* mean not only 'gossamer', but also a summer-like period in late autumn, a St Martin's summer; that the obs. Sc Go-summer had the latter meaning; and that it is in the warm periods of autumn that gossamer is chiefly observed These considerations suggest the possibility that the word may primarily have denoted a 'St Martin's summer' (the time when geese were supposed to be in season ; cf. G *Gänsemonat* ('geese-month', November), and have been hence transferred to the characteristic phenomenon of the period. On this view *remembrance* (which by etymologizing perversion appears also as *summer-gause*) would be a transposition]

L. *gunna*, used in the 8th c by St Boniface for a garment of fur permitted to elderly or infirm monks. A late L. *gunna* 'skin, fur', is quoted from a scholiast on Verg *Georg.* III. 383, and in Byzantine Gr *γοῦνα* is common as the name of a coarse garment, sometimes described as made of skins

The origin of the Rom word is obscure. Some scholars regard it as of Celtic origin, comparing Welsh *gŵn*, Irish *fhan* 'lacerna', which are referred by Stokes (Fick's *Idg Wb* 4 11 281) to an OCeltic ***vo-unno-*, f. *vo-* (= Gr *υνο* under) + root *an-* to breathe (= L. *ex-an-ire, ind-an-ire, sub-an-ire*). But Loth (*Rev Celt* XX 353) raises phonological objections, and believes the Welsh word to be adopted from Eng (as are the Irish forms). Gael *gun*, Manx *goon*. In any case the Celtic origin of the Rom word does not seem to accord with the geographical probabilities. Albanian has *gune* cloak, but it is uncertain whether this is native or adopted from Gr.]

Græco-, Greco- (grī'ko), mod. combining form of L. *Græcus* GREEK. Like other comb. forms of ethnic adjs (as ANGLO-, CELTO-, FRANCO-, GALLO-, TURCO-), it is modelled on the form occurring in Greek compounds like *Σκυθοβάλης*, and in late L. imitations of these, like *Gallogræcus*. Apart from the words *Græcomania*, *Grecophil*, which are formed strictly on Gr. analogies, it occurs only in compound adjs. (now always written with hyphen), the sense of which is either 'relating to the Greek settlements or states established in certain regions abroad', as in *Græco-Asiatic*, *-Bactrian*, *-Phrygian*, or 'partly Greek and partly something else', as in *Græco-Latin*, *-Mohammedan*, *-Oriental*, *-Roman*, *-Trojan*, *-Turkish*.

The fortunes of 'the Holy Grail' (OF. *le saint graal*, whence Malory has the corrupt form *sangreal* ; see Sangreal), and the adventures undergone in the search for it by various knights of Arthur's Round Table, form an important part of the matter of mediæval romance. According to one story, it was brought by Joseph of Arimathea to Glastonbury (see the 14th cent *Joseph Arim.*, where it is called 'þe dische wiþ þe blode'). Sometimes the Grail or Sangreal has been erroneously supposed to be the cup or chalice used at the Last Supper.

Gram, form of Grame *sb.*; var. Grame *a.*

-gram (græm), repr. (chiefly) Gr. γράμμα something written, letter (of the alphabet). The older Eng. abs with this ending fall into three classes. (1) adaptations of actual or assumable Gr. sbs. in -γραμμα, derived from vbs. f. prep. + γράφειν to write, and expressing the result of the action of the verb, as *anagram*, *diagram*, *epigram*, *paragram*, *program* (usu in Fr spelling *programme*); (2) compounds of a Gr. sb with γράμμα, f. legitimately assumable Gr. types, as *chronogram*, and (later) *telegram*, *logogram*, (3) compounds of a numeral with γράμμα, or more frequently with γραμμή line, of which the Gr. type, where one exists, is a neut. adj. in -γραμμον, as *monogram*, *hexagram*, *pentagram*. (Yet a fourth kind of formation has one example in Lipogram.) In the year 1887 the need for a shorter term for 'telegraphic message' was supplied by the introduction of *telegram* (previously proposed in 1852), which violates Gr. analogy, as an adv. like πῆλε could not correctly form a compound with a vb or sb, but which was found so convenient that it quickly became established, and has been adopted into several foreign langs. Later formations suggested by this word are the hybrids *cablegram* for 'cable telegram', *pstolgram* for an instantaneous photograph. Another recent formation, also suggested by *telegram*, but not open to the same objection, is *phonogram* for the record of sound made by the phonograph In the denominations of weight in the metric system, *decagram(me*, *kilogram(me*, etc., *-gram(me* see Dekagram(me, Kilogram(me

Grama, gramma (grā·mă, gra mă). See Gama grass [a. Sp. *grama* a sort of grass] A name for several low pasture grasses abundant in the western and south-western United States, esp. *Bouteloua oligostachya*.

1851 Mayne Reid *Scalp Hunt* xix. Grammar (græ mə1), *sb.* Forms. 4-5 **gramm(m)ere,** 4-6 **gramer,** 4-7 **grammer,** (4 **gramaire,** 5 **gramayre,** -eer), 6- **grammar.** [ad. OF. *gramaire* († *grammaire*), an irregular semipopular adoption (for the form of which cf. OF. *mire* repr L *medicum, artimaire* repr. L *artem magicam* or *mathematicam*) of L. *grammatica,* ad. Gr. γραμματική (scil τέχνη art), fem. of γραμματικός adj, of or pertaining to letters or literature, f γράμματα letters, literature, pl. of γράμμα letter, written mark, f. γροφ of γράφειν to write. Cf. Pr. *gramaira* (prob. from Fr). Old Fr. had also a learned adoption of the L. word, *gramatique,* parallel with Sp. *gramática,* Pg., It. *grammatica,* G. *grammatik,* Welsh *gramadeg*

In classical Gr. and L. the word denoted the methodical study of literature (= 'philology' in the widest modern sense), including textual and æsthetic criticism, investigation of literary history and antiquities, explanation of allusions, etc., besides the study of the Greek and Latin languages. Post-classically, *grammatica* came to be restricted to the linguistic portion of this discipline, and eventually to 'grammar' in the mod sense. In the Middle Ages, *grammatica* and its Rom forms chiefly meant the knowledge or study of Latin, and were hence often used as synonymous with learning in general, the knowledge peculiar to the learned class. As this was popularly supposed to include magic and astrology, the OF *gramaire* was sometimes used as a name for these occult sciences In these applications it still survives in certain corrupt forms, F *grimoire,* Eng. GLAMOUR, GRAMARYE]

1 That department of the study of a language which deals with its inflexional forms or other means of indicating the relations of words in the sentence, and with the rules for employing these in accordance with established usage; usually including also the department which deals with the phonetic system of the language and the principles of its representation in writing Often preceded by an adj. designating the language referred to, as in *Latin, English, French* grammar.

In early Eng use *grammar* meant only Latin grammar, as Latin was the only language systematically grammatically In the 16th c there are some traces of a perception that the word might have an extended application to other languages (cf quot 1530 under GRAMMATICAL 1), but it was not before the 17th c that it became common completely a generic term that there was any need to speak explicitly of '*Latin* grammar' Ben Jonson's book, written *c* 1600, was app the first treat of 'English grammar' in that name

As above defined, grammar is a body of statements of fact= a 'science', but a large portion of it may be viewed as consisting of rules for practice, and so as forming an 'art' The old fashioned definition of grammar as 'the art of speaking and writing a language correctly' is from the modern point of view in one respect too narrow, because it applies only to a portion of that branch of study; in another respect it is too wide, and was so even from the older point of view, because many questions of 'correctness' in language were recognized as outside the province of grammar e g the use of a word in a wrong sense, or a bad pronunciation or spelling, would not have been called a *grammatical* mistake At the present day it is customary, on grounds of convenience, for books professedly treating of grammar to include more or less information on points not strictly belonging to the subject

Until a not very distant date, Grammar was divided by Eng. writers (following the precedent of Latin grammarians) into Orthography, Etymology, Syntax, and Prosody, to which Orthoppy was added by some authors In these terms (except Syntax) were used more or less inaccurately (see the several words) The division now usual is that into Phonology, treating of the sounds used in the language, Accidence, of the inflexional forms or equivalent combinations, and Syntax, of the structure of sentences, the branch of grammar dealing with the functions of the alphabetic letters is usually treated along with the phonology

4. The phenomena which form the subject-matter of grammar; the system of inflexions and syntactical usages characteristic of a language

'Languages not possessing an elaborate system of inflexions and concords are often said to have "little or no grammar." This seems to have been partly the meaning of the reproach against the English language quoted by Sidney *Apol Poetrie* (Arb) 70, "that it wanteth Grammer", though it may also have meant that English had not been refined and improved, as the classic tongues were supposed to have been, by the labours of grammarians

1. The popular name of various delphinoid cetaceans, having a high falcate dorsal fin and a blunt rounded head, and remarkable for the spouting and blowing which accompanies their movements

In popular use, the name seems to be most frequently applied to the formidable 'killer' (*Orca gladiator*). But it is also applied to an inoffensive cetacean, resembling this in size and general appearance, but differing in the smaller size and number of the teeth. For the latter, which Cuvier had placed in the genus *Delphinus*, the Eng. word *Grampus* was adopted by J. E. Gray, 1846, as a mod. L. generic name; the only species certainly determined is *G. griseus*, sometimes called *cornfish*. According to some authorities, the name is also applied to the pilot- or ca'ing whale (*Globicephalus*).
